

It is with great excitement that I take on the new role of General Manager. I look forward to serving the MNGC family in an entirely new capacity. Hopefully, you've already noticed some good changes around the club. I want to stress that our Members are very important to me and to my staff. I'm also excited to announce the release of our new website! Please visit **memphisnational.com** to check out what the new website has to offer. Expect a letter from the club that will explain the "ins and outs" of the website. I think you're going to like it! Remember, membership is key, so bring your guests to our club. With your help we can reach new heights. Thank you all for your continued support of me and my staff. It is noticed and appreciated.

On the Course

with Toby Thornton

With the start of spring we have many completed projects and others starting soon. We completed a new curb on #5 Champions and have seeded new wild flowers between number 14 green and 15 tees in common areas. This will add some nice color and contrast to the course. Also we have started the drainage project on #13 Legends to move existing water from ditch and save irreplaceable trees. We also finished aerification on legends, and they have grown in nicely. We have an aerification scheduled on Champions for the end June which will make these greens even better than they are now.
