Cold, cold, cold! What more can you say. This Winter has been one for the record books, but then I don't have to tell you that. Despite Mother Nature's cold, we are working on restoring your golf courses to the conditions you expect. The following note from Phillip Carter gives greater detail on our efforts. Be patient...warm weather is coming!

Brian Pope
General Manger/Course Maintenance

This winter has been a brutal one, to say the least. It was colder than normal and we had above average snowfall for this area. With that being said we had a lot of work to do through the winter. With the Bermuda grass greens on Champions we had to cover and uncover them six or seven times. The Bent grass greens on Legends have been and still are healing from the brutal summer we had last year. We reseeded all the bad areas last fall and they are filling in nicely. We will have them back to normal and better than ever just in time to kill them in July when we do the renovation.

Both courses made it through the winter, with the exception of some bad storms and high winds that knocked down some limbs and trees. We have we working diligently to get the debris cleaned up.

You will notice most of the new tee signs are out on legends. The only ones we have left to put out are where the water coolers are. We are working to get those out as soon as possible. We have had some construction going on behind the driving range tees. We tried to put rail road ties in the ground to make a walking path. We soon discovered that wasn't going to work so we dug those out and sodded that area. This was done not for carts, but to beautify the area behind the clubhouse. There are to be no carts driven behind the driving range tees!

Also we've started doing what we call a Daily Conditions page. This will be displayed on the counter in the golf shop for everyone to see. This page lets everyone know what the pin positions are, the cart rules, and the daily maintenance activities that we will be doing that day. This is a great communication tool for us to let you, the member, know what to expect when you play each day. We have lots of stuff planned this year to make your courses better and with some good weather and hard work we can get the courses greened up and ready for play! I hope to see you out here enjoying your club.

Phillip Carter
Superintendent

WELCOME NEW MEMBERS!

Thanks to the help of our loyal sponsors, we have successfully enrolled 88 New Associate Members since January 1st. This is nearly double the number of members enrolled this time last year. Our goal as a club is to have all of our Current Members converted to an Associate Membership by the end of 2011.

If you know someone that would be interested in becoming a Member, please let me know. We would love to send an invitation on your behalf.

If you do not **SAVE AT LEAST** \$200.00 for the year in the Buyer's Club, we will give you golf shop credit for the difference. You can't lose!!! Ask the pro shop for more details.
